We offer two separate Odessa real estate listing databases at UA Realty Group below:

1. UA Realty Group Exclusive listings. This database consists of listings which are listed exclusively with UA Realty Group. The listings found below cannot be found via any other real estate agency and the brokerage fee would be payable only to UA Realty agency. For the most part, these listings are for high quality apartments located in the center of the city and are great for either living or rental purposes. If you are considering purchasing with intent to rent, we can provide income forecast calculations free of charge.

UA Realty Group Exclusive Odessa Listings

2. Ukraine Multiple Listing Service listings. This database consists of listings which are shared by various Ukrainian real estate agents. The listings encompass all areas of Odessa and offer a wider variety than the exclusive listings above. The brokerage fee on these listings would be shared between UA Realty Group and the listing agent.
